

LEARNING MANAGEMENT SYSTEM

All e-learning training is delivered through our cloud based Learning Management System. This provides organisations with control and visibility of user access, progress and performance using a range of built-in administration tools. The administration functionality allows for easy setup of users and the ability to track and monitor individual and group activity. Management reports can be easily accessed and reviewed to demonstrate and evidence competence training.

THE LEARNING MANAGEMENT PLATFORM INCLUDES THE FOLLOWING FEATURES:

- Customisation and branding for your organisation
- User licence allocation and management
- Course access and competency tests for users
- Administrator activity and in depth reporting
- Automatic reminders for outstanding courses
- Add and manage your own content/courses
- Logging and reporting all aspects of training
- Setting user permission levels
- Creating groups and easily adding users

Additional compliance courses available:

**ANTI-MONEY LAUNDERING
ANTI-BRIBERY
EQUALITY AND DIVERSITY
DATA PROTECTION
CYBER SECURITY
SRA ACCOUNTS RULES
ID VERIFICATION**
